CERTIFIED MINE SAFETY PROFESSIONAL (CSMP) Program

Procedures and Requirements

General Criteria:

1. To qualify to sit for the CSMP professional examination you must be actively engaged in a mine safety position, (i.e., manager, coordinator, trainer, inspector, officer, etc.). Membership in The International Society of Mine Safety Professionals is not required to qualify as a CSMP. However, participation in organizations such as ISMSP may assist in keeping your continuing education requirements current as well as offering extensive networking opportunities.
2. CSMP are internationally recognized professional designations. In preparing for the examination you will find it advantageous to have a good understanding of international mining laws, rules, and regulations.
3. Candidates for the CSMP designation must have a minimum of ten (10) years of mining experience, two of which must have been in mine safety per paragraph 1 above.
 - a. A baccalaureate degree in Safety Engineering, Industrial Safety or Industrial Hygiene from a recognized college or university may be substituted for three (3) years of mine safety experience.
 - b. A baccalaureate degree in Mine Engineering, Metallurgy, Geology or other mine related disciplines (approved by the Membership Committee) may be substituted for two (2) years of mining experience or one (1) year of direct safety experience.
 - c. Non-mining related baccalaureate degrees may be substituted for one (1) year of mining experience or one (1) year of safety experience.

Please note:** All graduate and undergraduate degrees are given the same level of credit in substitution for actual working safety experience. Peoples' lives and company welfare depend upon the decision of the mine safety professional. Our experience has been: **there is no substitute for experience.

HOW TO APPLY:

1. Complete the accompanying Application for Certified Mine Safety Professional. The Certified Mine Safety Professional Certification Board will review the application to determine eligibility for examination. Notification will be communicated to you promptly.
2. If a candidate qualifies to sit for the CMSP Examination, the fee will be \$500.
3. The examination will take approximately eight hours to complete. It is an objective test consisting of 200 questions. Should you fail the examination, you will have one year under this application to retake it. After one year you must submit a new application.
4. Preparation courses for the CMSP examination are available. Contact the ISMSP office for information on time and location of current courses¹.

1 You are not required to enroll in any CMSP Preparation Course as a condition for taking the examination, nor is completion of any such course a guarantee of passing.

Membership in The International Society of Mine Safety Professionals is not a requirement to be a Certified Mine Safety Professional. However, among the many benefits of membership, you can receive credit toward your CMSP recertification fee.

Please continue to examination application
